The scientific journals form the backbone of researchers and therefore a current list of serials is always of immense use to the Scientific Community. The list of the current serials of the library of the Indian National Science Academy has been compiled by the library staff in an alphabetical manner supported with the sponsor index and a subject index to facilitate its reference. It will be seen that the library of the Academy is receiving 1176 current serials in various fields of Science and Technology and a substantial number of journals are being received on exchange - basis from foreign Scientific Academies/Institutions. Annual reports of various scientific institutions and other important scientific reports are being received in the library. Academy's library is likely to emerge as a good reference centre for the scientific workers. It is hoped that through this catalogue, it will be possible to enhance the utility of the library. Your suggestions regarding the library of the Academy are most welcome.
